DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8 and 11 are allowed.
2. The following is an examiner's statement of reasons for allowance: the combination of limitations that includes a content delivery network wherein a subset of servers may have a file deleted and wherein protections of accidental file restoration is given is, as explained in the prior office action and interview summary, a novel and non-obvious combination in light of the known art.
3. The claims as currently drawn lead to content delivery network (CDN) of a described purpose and structure, wherein a purge requestor may select which content servers (all, or a subset thereof) to delete a content file, wherein a first target content server purges the file, and then keeps a second target content server that has not yet purged the file from restoring the file to the first target content server. The combination of features in total teach away from content networks and from data mirroring networks, and are therefore novel in light of the given art.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
